

Hello all, because of the firewalls on our school's network, in order for you to get online while on campus, you will need to have antivirus software installed on your computers BEFORE arriving on campus. Most PCs have antivirus software out of the box, but if your computer is a PC and doesn't, you can install a free copy of Microsoft security essentials here:

<https://www.microsoft.com/en-us/download/details.aspx?id=5201>

If you own a Mac, this software below is free and is the recommended one by the university. Download it here:

<https://home.sophos.com/>

I apologize for this inconvenience, but it will make your arrival much smoother if you do this ahead of time.
