Greetings to friends everywhere from the lower elementary group at North Pacific Yearly Meeting.

We played. We made things. We made a pasta monster out of catkins. We played with pipe cleaners and beads. We made hats for our play. It was terrific! We read stories. We made handkerchiefs. We put rubber bands on them and tied them into knots. We put them in some blue mix which made them blue. Then we put them out to dry.

We went on a tree hunt. We found an umbrella tree and a redwood tree that was humongous—one was so big that all of us couldn't reach around it, then we found another redwood tree that we could reach. We also found a ginkgo tree and a maple tree.

We went to a labyrinth. You have to follow the red bricks.
