1. The clerk’s email has been inaugurated and used to forward the Committee Report from July and the materials for the first topics to be addressed in the new process. The “emailing list” includes all officers of the Yearly Meeting, including clerks of standing committees, and representatives from meetings and worship groups as well as individual Friends who request to be included. Such requests, and any business for the Committee, can be sent to the clerk at qspiritt@gmail.com.
(Note: the letter “t” appears twice at the end of the “qspiritt.”)

2. The materials for first three questions are in the hands of Friends and the initial response to them has been requested by December. There are reports that some meetings are beginning to work with them and some indications that the process is challenging but rewarding.

3. The materials have not yet been posted to the NPYM website. The date to get them up is not settled. When they are posted notice will go out to Friends via the Clerk’s email.

4. The Committee will be considering tomorrow ways to support and encourage the process among Friends.

5. Visitation has taken place between the Committee and some monthly meetings. The Committee continues to encourage Friends to invite the Committee for purposes of both supporting their process and to sit among them and listen to their conversations about the questions.

Timothy Travis
Clerk
